

Military Toronto – 1918 – World War I – Early Military Machine Cancel

Four camps were issued the type of machine cancel shown below. Locations and known dates of use are: Toronto (1918), Camp Borden (1916-17), Valcartier (1916) and Niagara Camp (July 1918). Baily & Toop characterize these marks as part of a series of postal marks which resulted from discovering that the postal service organization begun in 1911 was inadequate for the current needs of the service.
